Long Life UPS'

UNINTERRUPTED POWER SUPPLY

This is a compact inverter designed to power your home appliances and precious electronics.

Compared with traditional inverters in the market, this inverter provides two operation modes: UPS mode and Inverter mode.

In UPS mode, the inverter becomes a UPS which can provide pure power source to PC-related equipment or sensitive devices whilst in inverter mode, the inverter can provide continuous power to general home appliances. Not suitable for appliances that have an element or motor.

SPECIFICATIONS

- **Model:** 1.2KVA & 2.4KVA
- **Voltage:** 220/230/240 VAC
- **Voltage Regulation (Batt. Mode):** +/- 10% Transfer Time: 20ms typical
- Heavy Duty Castors x 4
- Re-enforced mounting rods and bolts
- Industrial handle will hold up to 80kg weight
- Cradle mount bracket for re-enforced Invertor mount

Estimate Running Time 1.2KVA

100watt	200watt	400watt
Mobile Phone (5W) Laptop (55W) LED Lamp x 2 (5W) Wifi Router (30W)	Mobile Phone (5W) Laptop (55W) LED Lamp x 2 (5W) Wifi Router (30W) LED TV (100W)	Mobile Phone (5W) Laptop (55W) LED Lamp x 2 (5W) Wifi Router (30W) LED TV (150W) TV Dish (30W) Desktop (50W - 150W)
